

Subscription Agreement

PlantMaster Pro — AI-powered maintenance management · Version 1.0, effective 18 September 2026

This is the standard agreement covering a PlantMaster Pro subscription. It is published so you can read every term before you commit. When you are ready to proceed we issue this same document as an order form with your company name, chosen plan and agreed fee filled in.

1. The parties

Provider: HSB Fix Services ("the Company"), Karachi, Sindh, Pakistan.

Customer: the company named on the signed order form.

Product: PlantMaster Pro, maintenance management software delivered over the internet.

2. Plans and pricing

Plan	Price / month	Included
Basic	Rs 7,500	5 users, 1 plant, 5 GB. Core maintenance and operations. No AI features.
Essential	Rs 12,000	10 users, 1 plant, 10 GB. Adds AI Problem Solver, deep search, vision scanner, manual uploads.
Professional	Rs 24,000	25 users, 1 plant, 30 GB. Adds condition monitoring, predictive maintenance, daily report email.
Enterprise	Rs 40,000	100 users, 2 plants, 100 GB. All Professional features, plus company branding and custom limits.

Pricing is flat per plant, not per user. Annual payment is available at a discount. Prices may be revised over time, but a change never affects the fee already agreed for your current billing term, and you receive at least 30 days' notice before any change applies at renewal.

3. Free trial

Seven calendar days free on any plan, no card required. Access does **not** convert to paid automatically — you must actively confirm your plan and payment details to continue. If you do nothing, the trial simply ends.

4. Term and renewal

The agreement starts on the effective date and runs month to month unless an annual term is agreed. Either side may cancel with 30 days' written notice; email is sufficient. There is no minimum lock-in and no early-termination penalty, except that a discount attached to a prepaid annual term is forfeited on early exit.

5. Payment

- Invoices are issued monthly or annually in advance, according to the billing term chosen.
- Payment is due within 7 days of the invoice date, by bank transfer or other agreed method.
- Accounts more than 15 days past due may be suspended. Data is retained, not deleted, for non-payment alone.
- Fees are exclusive of applicable taxes, which are the Customer's responsibility.

6. What the Company provides

- Access to the modules included in the chosen plan, for the licensed number of users and plants.

- Free initial setup and data import — assets, users and existing records, including loading your equipment manuals.
- Support by WhatsApp and email during business hours, targeting a first response within one working day.
- Reasonable efforts to keep the service available, with maintenance windows notified in advance where practical.

7. Customer responsibilities

- Provide accurate billing information and keep user accounts limited to authorised staff.
- Treat AI guidance as decision support, not a replacement for qualified engineering judgement on safety-critical work.
- No reselling, sublicensing or granting access outside your own organisation without written consent.

8. Data ownership and export

All Customer data — assets, work orders, manuals, reports, condition-monitoring readings, everything — remains the **Customer's property** at all times. It can be exported at any time as CSV, Excel, Word or PDF. After termination the data remains exportable for 30 days, after which it may be permanently deleted.

9. Confidentiality

Each side keeps the other's non-public business, technical and operational information confidential and uses it only for the purposes of this agreement — during the term and for two years afterwards.

10. Limitation of liability

The Company exercises reasonable skill and care. To the extent permitted by law, total liability in any twelve-month period is capped at the fees paid for that period, and the Company is not liable for indirect or consequential loss such as lost production or profit. This cap does not apply to gross negligence, wilful misconduct, or any liability that cannot lawfully be excluded.

11. Cancellation

Either party may cancel using the notice period in section 4. Fees already paid for the current period are non-refundable, but no further charges apply once cancellation takes effect. The Company will reasonably assist with data export under section 8.

12. General

- This document, the Product Overview and any signed order form together form the entire agreement.
- Governed by the laws of Pakistan. The courts of Karachi have jurisdiction over unresolved disputes.
- Changes must be agreed in writing — email is sufficient — and confirmed by an authorised representative of each side.
